

APRA in Tanzania

Rice commercialisation (Work Stream 1)

APRA is working in Tanzania to conduct quantitative and qualitative research to analyse the effects of different forms of rice commercialisation on poverty, food and nutrition security, and women's empowerment in Kilombero Valley.

Sunflower commercialisation (Work Stream 2)

APRA is working in Tanzania to conduct quantitative and qualitative research to explore how different pathways of sunflower commercialisation have evolved over time to assess the dynamics of agrarian change, and how these have influenced the livelihood opportunities and outcomes for rural men and women in Singida Region.

All APRA Tanzania publications can be found on the dedicated country page:
