

KEY QUESTIONS

Climate Change and Policy Process in Ethiopia.

A Roundtable Discussion, November 11, 2010, Ghion Hotel,
Addis Ababa

1. What are the key policy narratives (description of problems and solutions) on climate change in Ethiopia?

- ▣ Dominant and less dominant or “silent”
- ▣ To what extent do narratives differ by political level (national-local)?
- ▣ How do narratives on mitigation and adaptation compare or differ? Synergies/contradictions?
- ▣ Who are attached to the various narratives? (private/NGO/govt/IGO)
- ▣ To what extent do international narratives influence national narratives?

2. How do the climate change narratives fit/not fit with other agricultural sector (crop and livestock) narratives in the country?

- ▣ Do they give impetus to some, and hinder others?
- ▣ To what extent have relevant policies captured CC issues and challenges? (FYDP)

3. Where are the key challenges and opportunities for the government?

- ▣ What are the key policy choices?
- ▣ What types of knowledge is needed?
- ▣ What role could different actors play?
